Acceptance Testing for the Music Moves Me website re-design

Navigation Menus

The Admin can update Header and Footer menu items easily.

- ☒ Easy to navigate to the "Appearance>Menus" section on the WordPress dashboard.
- ☒ Easy to select the desired menu to edit, edit display location in the settings and change menu structure if needed.
- ☒ Able to create a new menu and assign it to a 'Primary' or 'Secondary' menu location.
- ☒ Easy to update.

Comments:

added a New page (blank) instead of choosing from the given list of pages when editing the "Footer" menu.
~~choose~~ "Appearance>Menu" navigation method was identified by himself.
Understands how the Menus work and knows not to add sub menus as we no longer use that style here anymore.

ABOUT page

The Admin can update all the posts on the About page easily.

- ☒ Easy to navigate to the "Appearance>Customize>About" section on the WordPress dashboard.
- ☒ All the images and the text areas are editable.
- ☒ Easy to update.

Comments:

Asked about image shapes. Explained if he intend to change the styling he needs to contact the developer.
Understands how the "preview" works.
Client knows how to change images and edit text very well.

PROGRAMMES page

The Admin can update all the posts or add new posts on to the Programmes page easily.

- ☒ Easy to navigate to "Posts" section on the WordPress dashboard.
- ☒ All the images and the text areas are editable.
- ☒ Able to add a new "Programme" post.
- ☒ Easy to update.

Comments:

Informed not to bother about "Categories" and "Tags" sections.
Remembered to add the image to "Featured Image" section not to the "Add Media" section.
Understands how to work with the "Media Library" uploading and resizing files. If resizing images is too hard he will send them to the developer.

EVENTS page

The Admin can update all the events or add new events on to the Events page easily.

- ☒ Easy to navigate to "Events" section on the WordPress dashboard.
- ☒ All the images and the text areas are editable.
- ☒ Able to add a new event.
- ☒ Easy to update.

Comments:

Explained the format currently used on the content and suggested that he stick with the same.
He might copy a previous event content text and edit when creating a new event. I asked him to keep in mind about the "Read more" tag when copying like that as he may need to customize that point.
Adding icons seems easy for him.

SHOP page

The Admin can update all the products or add new products on to the Shop page easily.

- ☒ Easy to navigate to "Products" section on the WordPress dashboard.
- ☒ All the images and the text areas are editable.
- ☒ Able to add a new product.
- ☒ Easy to update.

Comments:

The price update on a current product didn't work. Developer to work on that.

Client understands difference between "product Description" and "product short description".

Client remembered to add the image to the "product image" section not the "product gallery" section.

Additional Notes

- Explained the structure, functions, features of the WordPress dashboard.
- + Client knows how to login to the WordPress dashboard.
- If he sees any notifications or updates he will be contacting the developer with screenshots.
- Explained that if he needs changes made to "HOME" or "CONTACT" pages or needs a new page added in he should contact the developer.
